Tuesday, Feb 11.

Edgar Marvin vs. Bank of British Columbia.

Plaintiff was examined at length, and afterwards Messrs Henry Rhodes and Godfrey Brown, when counsel for plaintiff closed their case.

A motion for a nonsuit was made by defendants, but denied.

The following gentlemen were then examined on the part of the defence—Messrs Robt Greig and Wm C. Ward, after which Court adjourned until 11 a. m. on Wednesday.

In our report of Monday's proceedings we inadvertantly omitted the name of Mr. Roscoe from the list of jurymen.

THE PROOF! THE PROOF!—The honorable(?) scalliwag of the *Columbian*, in reply to the ventilation we gave his disloyal proclivities, resorts to the *tu quoque* style of argument and renews his charge that the COLONIST once advocated annexation to the United States and declared that nine out of every ten men in the Colony were in the same boat. He fails, however, to produce the proof. When *we* accused *him* of disloyalty—when we brought forward charges of traitorous practices that will, we trust and believe, insure his expulsion from the Legislative Council at its next sitting—we substantiated those charges. 'Out of his own mouth (or rather paper) we condemned' the Traitor. If he can convict us through the medium of the COLONIST, let him produce the article on which he founds his accusation. If he has not a file of this journal at hand we gladly place our own file at his disposal. Strong in the consciousness of our innocence, we afford the traitorous slanderer every opportunity within our power to prove his charge. Will he accept the offer?

UNFORTUNATE ENCOUNTER—An affray took place between Messrs T F McElroy and A J Moses, last Wednesday evening, in Mr William's store, which resulted in the serious injury of Mr Moses. It appears that for some days past Moses had held a grudge against McElroy and had frequently denounced him in the most bitter language. On the evening of the affray he assailed McElroy with the most violent abuse and the consequence was an appeal to 'moral suasion.' Mr Moses' injuries may be summed up a broken leg, caused by the falling of a stove upon it during the scuffle, and a wound upon the head inflicted by some cudgel or other instrument in the hands of McElroy.—*Olympia Standard.*

Two passengers from Portland, Oregon, arrived per Anderson yesterday. They crossed the Willamette and Columbia rivers on the ice. Loaded teams were crossing daily from shore to shore and the U S Quartermaster was engaged the day they left sending six-mule wagons, laden with army supplies, across both rivers. The cold had been very severe but it is believed that the heavy rain now falling will raise the water in the rivers and carry the ice out to sea. The Oliflamme remains at Astoria icebound.

THE U S R C Lincoln come in from Puget Sound yesterday afternoon.

LAST evening a farmer from the other side fell into the View street sewer, near the house of Mr Bond, receiving serious injury. Mr Bond, hearing the man's cries for assistance, proceeded to the spot and extricated him from his perilous position. The injured man was conveyed to the residence of Mr Innes and medical assistance promptly sent for.

MISSING—Wm. Black, the insane man who ran into the prison a few days ago and was subsequently released, has been missed by his friends since Saturday. He is a tall, dark complexioned man, with black hair, whiskers and moustaches.

FROZEN TO DEATH.—A telegram from Clinton last evening reports that Caleb Inman, a packer, while going from Clinton to Dog Creek, on the 27th ult, had his limbs dreadfully frozen and died from the effects on Friday last.

TRADES LICENSES.—The half-yearly trades licenses, ending on the 30th of June next, are due and payable at the office of the Stipendiary Magistrate. Parties selling without a license are liable to a penalty of $250 for each offence.

THE steamer Eliza Anderson, Capt Finch, arrived from Puget Sound yesterday morning. Business on the Sound is dull owing to want of communication with the interior, the late floods having torn up the roads in every direction.

TIGER ENGINE CO. No. 2—At the adjourned monthly meeting of this Company last evening Thomas J. Burnes was elected Foreman, *vice* James Gillon, resigned, and Joshua Davies 2nd Assistant Foreman, *vice* Burnes.

MR SUTTON, formerly Chief Engineer of the New World, has placed us under obligations for copies of the *Oregonian* to the 5th inst.

EDITORS COLONIST—If it is possible to form any opinion of what they want from the speeches and writings of Messrs Young, Bull & Co., they seem to be impressed with the idea, that this Colony should continue to remain governed at an expense of $700,000 a year, because under Confederation Canada would not govern us for nothing. Suppose we may reasonably assume that under Confederation the expense of our government would not be more than half that amount; that fact is no recommendation in the eyes of those sage politicians, because government is still going to cost us that much. They will not even condescend to ask Canada whether or not she will give us the terms proposed, and why? because we have already made two or three changes which have proved mistakes. That is, we have lost our way, and because we have made two unsuccessful attempts to recover it, we must be content to remain for ever lost rather than make another effort to find the road, the non-recovery of which is certain death. Why, sir, with any sane, any thinking, or any honest man, the very fact that these efforts have hitherto unsuccessful, is the strongest possible reason why we should make another struggle to recover our lost position. Here we have a method laid down by the adoption of which we may reasonably expect to do so and if the opponents of Confederation decline to accept that method it is clearly their duty to point out how we are to exist during the next four or five years; how we are to raise our present revenue; how we are to sustain our present and increasing indebtedness—all of which we must do if we retain our present Governor, with our present system of Government,—a Governor respecting whom a member of the firm of Young, Bull & Co. a short time ago, wrote, "that in consequence of his thorough unsuitableness, it is inconsistent with our self-respect that we patiently bear the continuance of Governor Seymour any longer amongst us," &c.; and yet, within six weeks, the writer of that sentence is a principal mover in getting up a petition with the avowed purpose of retaining for an indefinite period that "thoroughly unsuitable" Governor and his whole system. What can we think of such a politician? There can be no controversy with such an opponent; and when we find a man with so little regard for his own consistency—so little consideration for his own judgment—assuming the position of a leader of the people, one cannot but feel that his only claim to our courtesy is the claim which charity gives him, and that even charity can give him no just title to our respect. Such leaders should have some thoughts, some ideas, something like honesty of purpose. It is impossible to combat mere opinion. No man has any right to resist a measure which is indispensable without being prepared to offer something better. These petitioners offer nothing, suggest nothing. They would sacrifice the best interests of the Colony to gratify their spleen against a political opponent, they would stick to the ship and go down with the wreck rather than go into the boat alongside, because Mr DeCosmos already occupies a seat there. There is a grandeur and sublimity about self-immolation when dictated by a stern sense of duty; but when that self-immolation is induced by a spirit of personal revenge there is something about it so "abject, mean and vile" that I shall not venture to characterize it a it deserves. If, instead of having the privileges offered us by Confederation urged upon us—almost thrust upon us by the British Government—the people of Canada had at the present moment been like the people of the United States some ninety years ago, in arms against the British Government, demanding those very rights—I have no doubt we would have found the firm of Young, Bull & Co. in the vanguard of agitation, eagerly hounding on every man disposed to take the field; and perhaps in a moment of ardent enthusiasm these patriots themselves might have unsheathed a sword and watched the conflict from some convenient knoll. And yet, because those rights and privileges which have again and again been thought worth fighting for, are at present so easy of attainment, are offered for our acceptance—are placed within our reach—these men think proper to reject them; they will not even deign to consider them; they will not even condescend to ask Canada what she will give; but they retire upon what they call their dignity and —starve! Permit me to say, in conclusion, that if the people of Victoria are willing to be led like sheep to the slaughter by such leaders as these,—the first, a man whose only claim to distinction is the fact that at some former period of his life he must have graduated with the highest honors in some school of coarse invective—the man who has "established a raw." The other seems to be a man whose ideas have got into such singular confusion as to leave no one idea clearly presented to his own mind, except an intense dislike of Canadians and everything Canadian. I say that if the people of Victoria are willing to range themselves under the banner of such leaders as these, they richly merit that ruin which under our present system the future will surely bring us.

Letter No. 3, from "Victoria."

EDITOR COLONIST:—In my former letter I suggested for the consideration of the public whether the tariff of the Dominion might not prove very injurious to the agricultural, commercial and industrial interests of this Colony, and thus instead of offering inducements to people to settle, would rather tend to depopulate the country? Whether the admission of Canadian goods duty free would not derange trade, compel merchants to seek new business relations and whether it would not prevent the use or progress of manufactures or factories in our own territory? Of course all these injuries to British Columbia might be beneficial to some of the provinces of the Dominion, but what we have to consider is our own interest. It would not comfort us to starve in order to fatten them. I likewise suggested that two members in a House composed of one hundred and eighty or so, could have little or no influence in altering the tariff, the commercial system or general laws to suit the Pacific portion of the Colony, that the general course of legislation would be to encourage the progress of the four millions, and not those ten thousand situated fifteen hundred miles off; and in fact that if joined to the Dominion, British Columbia would be deprived of the management of her own affairs instead of having more control over them. It may therefore be worthy of consideration whether the people living in British Columbia had not better manage their own legislation, they being conversant with the country, and what it requires, than entrust it to those who have their own interests to attend to primarily and who may be considered for the most part ignorant of the conditions and requirements of this Colony, and of the peculiar relations, geographically, commercially and otherwise that it bears to the United States of North America, for errors in legislation may transfer all the trade and commerce of our own country which we now enjoy into the hands of neighboring foreign territories. That the people of this Colony are as intelligent and as well able to judge for themselves as the Canadians, no one, of course, will deny; but where the shoe pinches is this, that the people believe themselves to be debarred from the management of their own affairs, that however good our system of government may be theoretically, that practically it gives great dissatisfaction and that being unsuitable must be bad. If a man is troubled with an aching tooth, surely in order to cure it it is not necessary to terminate his existence. If the government be bad would it not be wiser to improve it than to thrust ourselves into one which, being untried, might prove our death? The fable of King Log and King Stork has been practically rehearsed in this colony heretofore; is it necessary to have a new and revised edition thereof? It is a fact that under our present form of government the people may be debarred from carrying out their wishes; but it is a fact that they have been? During the late session of the Legislature the elected members carried everything their own way when they were united, and it was probably owing to disunion that other reforms were not effected. Surely we have more power over our own affairs even now than two members, who would be snubbed mendicants from a mendicant province could possibly have in the halls at Ottawa; by asking for improvements in our government we could have still more. It is not fair to attribute all the ills the country suffers to the government, but it is far more pleasant to blame the government than to accuse ourselves. The colony has gone through a terrible ordeal of insolvency with which the government had nothing to do, therefore the suffering should not be visited on its head, still it is the baneful effects of this ordeal and the unpopularity of and dislike to the government that leads many to seek consolation in the Confederacy, they having a vague notion that it is a good thing. Let the question then of the evils of our local government be left out, because they can be remedied and let our material interests only be considered. We have a rich country, and it is absurd to say that it cannot support its own government. True it is that the Government is now in difficulties, but the past year has been an exceptional year; the revenue has been diminished by causes very well known, its expenses increased by having to pay off various superfluous members and the retention of the Seat of Government at Westminster, and the presentation of bills that were supposed to have been paid. A brighter era has dawned, and it is believed by those able to judge that this year a considerable influx of immigration will take place and the funds of the Government be at least equal to the demands upon it, and that the revenue will be nearer $600,000. Let us wait awhile, and see what the condition of the country will be this year, and then we may have a greater or less love for it. It would be at least imprudent to rush into Confederation under a state of excitement; love at first sight may be romantic, but marriage is not unfrequently followed by years of sorrow. May not immediate Confederation lead to a similar results? If after Confederation the people of British Columbia become dissatisfied, that dissatisfaction will be a source of weakness and expense to the Dominion. It is better, therefore, for both parties not to be in a hurry. It is nonsense to say that this colony will be forced into the Dominion against its will; neither the Dominion nor this colony would allow it. But what is this Government of the Dominion. It means simply this, to take away all the present colonial revenues and apply them to the support of the General Government, and to such uses as that Government may choose, save and except that it must pay a Lieutenant Governor, judges and some few other officers; it may even be taken to pay loans and legions of loans which may be used for works of no interest or benefit to ourselves. Our loans expire in a few years—those of Canada never. Our debts, therefore, will diminish, our income increase. Again, under Confederation the chief expenses of the colony are left to be provided for by the local Government by direct taxation. Suppose the people of this colony to submit now to a Stamp Tax, that they will have to bear under Confederation, would they not be able to support their Government and carry on necessary works? There cannot be a doubt but that Confederation would to us increase the expense of Government; or in other words, that this colony could conduct its own Government at less cost than it will entail under Confederation. It requires very serious consideration whether it is worth while risking the destruction of the farming, industrial, manufacturing and commercial interests for the sake of $100,000 per annum, which very soon they might pay themselves to the General Government. The people want to prosper. To ruin them and give the provinces $100,000 to be allowed to do so, does not exactly seem the way to make a country rich or prosperous. Depend upon it, the country is large enough and rich enough to support itself; let us curtail our own expenses, improve our government and endeavor to develop our own resources; the people must do the latter and not the Government. The Confederacy is at best an experiment and none can tell whether it will succeed or not; even now it has discordant elements within itself which are disposed to promote its disintegration; surely it would not improve matters to have a dissatisfied British Columbia in it also. It may appear very liberal for the Government of Canada to give large sums of money to various provinces, but that money must be supplied by taxation, and if the present taxes be insufficient for the purpose others must be introduced. Canada is not generally believed to be rolling in wealth, and its resources will be sufficiently taxed to settle the Northwest Territory and pay for the Government Indian wars that are likely to be occasioned thereby. If the Dominion be a bad or indifferent thing, this colony would not wish to have anything to do with it; if a good thing, the people will not be slow to discover. If once negotiations are opened with the Dominion, and that is so rabid to grasp us as is assented, the colony will not get out of its clutches. Let us bide our time and events. I do not, Mr Editor, lay these things down dogmatically. They are merely intended to induce the people of this Colony to think for themselves; to think coolly and quietly, and not to be carried away to do in a moment of excitement that which many might repent when reason returned and calmer reflection prevailed. The question is a momentous one, not to the land, but to themselves personally and to those who may come after. If after *mature reflection* the people believe that their material interests will be better promoted by joining the Dominion upon terms, than remaining separate, who will deny them the right to do so? No one.

LIQUOR CARBONIS DETERGENS
OR
Concentrated Alcoholic Solution of the Constituents of COAL TAR
PERSEVERANDO VINCES. W.V.W. & Comp. TRADE MARK
[Extract from the Lancet, Dec. 22, 1866.
LIQ. CARBONIS DETERGENS—We are very sceptical of the value of new remedies, and it was in a spirit of scepticism that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, naphthaline, and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above diseases of disease, and in various others, such as fetid ulcers, etc., the preparation is put into the form of soap.

The question, Why does not the Council meet? is frequently asked, but has not yet been satisfactorily answered. The Governor, it is true, has written the honorable members for two of the districts that he hesitates to call the body together because he expects important dispatches from Home bearing upon the question of finances. These dispatches, it is generally understood, refer to a proposition carried to Downing Street by Mr. Birch, that a new loan to extricate the Colony from its pecuniary difficulties be effected with an Imperial guarantee. It would be absurd for British Columbia, already owing $1,200 000, to go upon the London money market for a new loan of half a million dollars without the endorsement of the Imperial Government; and the anticipation formed by some that the Imperial Government will become security for us will prove, we think, equally absurd. The policy of Great Britain is to confederate all her British North American Colonies immediately, with the ultimate object in view—should the scheme work well in that section—to extend the system to the West Indies, to Australia, to New Zealand, &c., and thus, instead of having a number of petty little provinces eternally warring against each other's commercial and political interests, and jealously watching lest their prerogatives are trenched upon by a neighbor, to consolidate the various sections into groups or families of Colonies, by union imparting to them strength and vigor, and by a course of wise legislation removing the causes that now exist for local disputes and heart-burnings. To illustrate the unsatisfactory condition of the British North American Provinces prior to Confederation, it is only necessary to refer to the system of hostile legislation pursued by the Mainland of this Colony towards Vancouver Island before Union. Few of our readers will have forgotten the blow aimed at our commerce by the passage of the Differential Duties Act and the Gold Export Tax—measures which, it was openly avowed by members of the Council, were designed to draw trade from Victoria and centre it at New Westminster. There was also the Mail Subsidy—a liability contracted at a period when the Mainland Government was in a bankrupt and sinking state, when its credit was even worse than the whole Colony's has been since Union—and contracted for the single purpose of destroying the commerce of Victoria. To be sure the Mainland Government, in the matter of the subsidy, 'bit its nose off to spite its face.' The signal failure of its foolish attempts have passed into history; and are only now valuable as reference in demonstrating how even English Colonies, when bound together by no stronger tie than that of common nationality, will resort to untair and inexcusable means to effect very unworthy ends in their intercourse with Colonial sisters. If England had no other object in view than to remove all motive for strife, we think the scheme of Confederation was wisely conceived. Confederation, therefore, being the policy of the British Government, we can readily believe that the proposition of Mr. Seymour to raise a new loan on the faith of the endorsement of the Imperial Government will meet with a decided 'No' at the Colonial Office. There will be no guarantee. England will advance no more money upon the security of the revenues of a Colony which under its present system of Government presents so poor a prospect of repaying the loans already effected. What, then, will be done? Will England cast us off and tell us to seek our own livelihood and carve out our own destiny? or will she consent to the solemnization of matrimony between Mr Brother Jonathan and Miss British Columbia? She will do neither. She will simply say to Ottawa, 'Here is our youngest daughter. She has been living beyond her income and is heavily in debt. She is fertile in resources and has millions of acres of rich, arable lands; she holds, besides, the key of the door through which your Confederacy must seek an entrance to the Pacific Ocean. Assume her debt and she is yours.' Canada will jump at the offer. This Colony would be cheap to the Dominion were her debt five times as great as it is. Seward would gladly give the Alabama claims and $10,000,000 besides for the privilege of planting the flag of his country upon our soil and proclaiming it America's. That negotiations are progressing for the transfer of the Colony to the Dominion we are now convinced; and that Governor Seymour is urging the adoption of that policy upon the Home Government we are equally well satisfied. His Excellency's best interests prompt him to hasten the accomplishment of the scheme. Should he succeed he will claim that his individual exertions brought it about. But should the Colony remain unconfederated when His Excellency's term of office shall have expired, an investigation into public affairs will be instituted by his successor, and Mr. Seymour visited with the censure of the Colonial Office for general incapacity and habitual neglect of duty. The Governor's true line of policy, therefore, if he wishes to save himself, is to hasten Confederation—a policy we believe he is at this moment pursuing to the best of his poor ability. His Excellency was correct when he wrote that he deferred calling the Council together until despatches affecting the financial *status* of the Colony had been received. Such a statement is quite consistent with the truth. He has laid his proposition for a loan with an Imperial guarantee before the Duke of Buckingham and Chandos, well knowing it will meet with no favor, and has placed the affairs of the Colony in a light before the Imperial Government that leaves it no alternative but to consent to our early admission to the Confederacy. We should not be surprised if Mr. Seymour never met the Council again, or that if he does it will be merely to announce the fact that Confederation has taken place. To the imminence of Confederation may be also attributed the failure of the Imperial Government to fix the Seat of Government of the Colony, and to take other steps which it is probable the Confederated Government would insist upon retracing immediately.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DESPATCHES.

Europe.

BERLIN, Feb 9.—At an interview recently Bismarck told Carl Schultz it was the most earnest desire of the King of Prussia to cultivate the good will of the people of the United States. This favorable disposition is regarded by Americans as most important in view of the possibility of the necessity for the selection of some foreign power as umpire between United States and England in the pending difference.

LONDON, Feb 10.—The feeling of uneasiness created by the threatening appearance in Northern Turkey has greatly subsided. The reports of troubles on the Danube were greatly exaggerated.

NEW YORK, Feb 9.—The *Herald's* cable dispatch says Napoleon has altered his policy towards the Pope and Italy in a sudden and remarkable manner. He evinces a disposition to abandon the position of champion of the Holy See. He is assured it is said of the existence of Burbon intrigues radiating from Rome. The imperial relations with Rome thereupon became colder while the friendly relations hitherto existing with Victor Emanuel will be renewed.

Queen Isabella has been forced to dissolve the Papal Legion, recruited under her warrant in Madrid as Napoleon flatly objects to their service in the cause of the Holy See.

Farragut remains at Florence a much honored visitor.

LONDON, Feb. 4.—Selwyn will succeed Sir William Earle, as Chief Justice of the Court of Common Pleas. Its understood that Minister Adams will leave England in April.

The Fenian Captain McKay was arrested on Friday, and is charged with leading the assault on the Martello Tower at Duncannon.

PARIS, Feb. 9.—The amendment proposed to the Press Bill, allowing trial by jury for all offences of the press, was lost after a heated debate.

The French Government has consented to expel the American refugees in France.

FLORENCE, Feb. 9.—Farragut's fleet during its stay in Italy will be stationed at and along the coast between Genoa and Civita Vecchia.

United States.

MONTGOMERY, Feb 10.—A despatch from North Alabama says that section has gone against the Constitution.

WASHINGTON, Feb. 6—It is reported today that the President and McCulloch have quarrelled, and that probably McCulloch will leave the Cabinet.

Howard called up the bill to grant aid to the Central branch of the Union Pacific Railroad. Sherman opposed extending further subsidies. After further debate the bill went over.

Blaints' Army Appropriation Bill contains a provision for the gradual reduction of the army until the force is reduced to 25 regiments of infantry, 7 regiments of cavalry and 5 of artillery. No new commissions will be issued except to West Point Cadets as Second Lieutenants. The Secretary of War is directed to consolidate the regiments as rapidly as practicable till the minimum is reached. The bill was referred to the committee of the whole and made the special order for the 13th.

NEW YORK, Feb. 9.—Advices from Abyssinia state that a strong force of British troops advanced from Sanafe towards the interior on the twenty sixth of January. Water had been bored, for according to the Artesian plan, and water found in abundant quantities near the English line of march on the coast shore and has been lightered by the English, for naval purposes.

SAN FRANCISCO, Feb 2.—The Panama steamer Montana arrived early this morning; also, the steamer Idaho from Honolulu. The Idaho reports the wreck of three Americans vessels. viz: Lizzie Oakford, Sept 22d. Washington, Dec 4th, and Minnehaha, Dec 3d. The crews had all arrived at Honolulu.

R. B. WOODWARD, proprietor of the What Cheer House, has recently bought the lot on the southeast corner of Sansome and Bush street, upon which he will soon erect a hotel on the European plan; cost of the lot, $105 000.

WM. H. HOOKE, of the firm of Amos, Phinney & Co. has filed his petition in insolvency. Liabilities, $230 000.

NEW YORK, Feb 1.—A Lima date of January 14th, says that a force sent by Prado to attack the Revolutionary forces under Zegura, was defeated and their commander severely wounded. On receiving the news of this repulse the Dictator determined on a final attack, and on the 23d water was cut off from the city, and on the 28th a bombardment commenced, lasting thirty-six hours. Over three thousand balls and shells were thrown into Arequipa, and several barricades were taken by an infantry charge, but were abandoned for want of support. General Bustament having informed Prado that the whole army was in the revolt and clamorous for his life, the latter thought the story false, but immediately sought safety in flight. Deserted by their chief, the troops became demoralized, and a large body passed over to the enemy. Prado, on arriving at Islay, embarked for Callao, when he proceeded to Lima. The indignation against him is very great. The troops in the castle at Callao were turned over to the Conso Government without bloodshed. Their example was followed by the Limans. General La Frientо has taken supreme command until the arrival of Conso, Second Vice President. Prado sailed on the 11th for Chile, where he enjoys the place and rank of General.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.
